*Comprehensive Laboratory Services*

- Specialty Hormone Panels.
- Facilitate Patient Questions and Inquiries.
- Billing to Doctor's and Patient's
- Convenient Blood Drawing: We schedule appointments for patients at nationwide draw sites (Quest Diagnostics and Lab Corp), arrange for a phlebotomist to draw blood at the patient's home/office, or mail draw kits to physicians that can perform blood draws in their office.
- Competitive Pricing: With the high volume of lab work we receive from physicians across the country, we are able to keep costs low to bring you more savings.
- Testing Results: Available online with flow chart capability (Spring 2010).

- Each product adheres to the Good Manufacturing Practices (GMP) established by the Food & Drug Administration (FDA).
- Superior forms of active ingredient and advanced formulations based on the most recent medical literature.
- A Professional line of supplements formulated in certain combinations to meet specific needs.
- Global Search: We search worldwide for the best raw ingredient sources, and take additional precautions to ensure that every ingredient manufacturer meets our quality standards. Through a 150-point inspection and audit, each process that takes place in the production of the raw ingredient is reviewed.
- Quality Assurance: Dedicated experts specify, monitor and validate every product that is developed under the NUTRAscriptives® brand.
- Country of Origin: For added assurance, we openly identify the country of origin for every ingredient that is included in a NUTRAscriptives® product.
